CLOUDBURST DROWNS ELEVEN; 5000 HOMELESS IN WEST VIRGINIA

GRAIN PRICE HITS SKY; CROPS FAR SHORT

Government Report of 358-
000,000 Less Bushels of
Wheat Is Awful Surprise to
Speculators.

CANADA OVER 100
MILLION BUSHELS SHORT

Wild Excitement Prevails in
Chicago Market, Prices Go-
ing Up Eight Cents Over
Night.

(By Review Leased Wire.)

CHICAGO, Aug. 9.—Giant crop losses in the United States and Canada sent the wheat market today nearly straight skyward. At one time, the ascent of prices amounted to 11 3/4 cents a bushel. Trading closed in a whirl of excitement, showing net gains of 10 5/8 to 11 3/8 cents, with the September option at 144 1/4 to 144 1/2 and with December at 148 to 148 3/8.

U. S. Crops Far Short

Something of the strain involved and of the far-reaching consequences may be realized from the fact that according to the United States government crop report, which was the principal cause of today's extremes, the domestic yield of wheat for 1916 will be 358,000,000 bushels smaller than the case last year. No such shortage had been foreseen even by the gloomiest prophets.

Canada Also Shy

Black rust spreading in Canada and indicating that the crop there would be cut down 125,000,000 bushels from the 1215 total made the situation still more acute, as the United States and Canada have been furnishing six-sevenths of the world's breadstuffs supplies to the countries that in the face of war difficulties have still been able to import.

Jumps Eight Cents Over Night

The biggest jump in prices today came right at the outset, exactly 8 cents a bushel overnight. Strenuous efforts to buy cleared the market at intervals almost completely bare of offerings, and forced the market higher and higher until the May delivery touched 152 1/2, a price just 1/2 cent under the topmost level on record in the violent fluctuations in the first year of the war.

Foreign buying on a huge scale apparently had much to do with the extreme price in the last hour of today's session. It was estimated that export business today totaled 1,500,000 bushels for immediate shipment.

Gossip of big individual profits gained by the sudden rise in the market were extremely indefinite. The best ground for guesses was the circumstance that since July 31, the principal options of wheat here have risen more than 23 cents a bushel.

DELAWARE QUARANTINES
AGAINST N. Y. BABIES.

WILMINGTON, Del., Aug. 9.—The Delaware state board of health at a meeting today declared an immediate quarantine applying to children under 16 years of age against Pennsylvania, New York and New Jersey.

71 HEAT VICTIMS
TO POTTERS FIELD.

CHICAGO, Aug. 9.—Seventy-one bodies will go to the potters' field from the county morgue, all victims of the recent heat wave that has enveloped Chicago for the past few days. Some were buried today and the others will be taken to potters field tomorrow.

The dead are in the great part unclaimed. They have left behind names and little else. A few are the dead of families too poor to assume the cost of burial.

GUARD OFFICERS
PROBATED TO ARMY.

BROWNSVILLE, Aug. 9.—The first step in the drafting of second lieutenants from the national guard into the regular army was taken here today when General James A. Parker issued an order attaching fifty-six second lieutenants in the national guard regiments to regular regiments. The lieutenants named are from Iowa, Illinois, Nebraska, Texas, Louisiana, Oklahoma, Virginia, North Dakota and South Dakota.

HUGHES DEFENDS STAND; DURAND FORCED OUT OF OFFICE

G. O. P. Candidate, Challenged for Statement at Detroit, Reads Durand's Letter at Minneapolis.

PREPAREDNESS PLAN
CALLED INADEQUATE

"Only Punishment Inflicted in Mexican Campaign Was on Ourselves," He Declares at St. Paul.

(By Review Leased Wire.) ST. PAUL, Aug. 9.—Charles E. Hughes, speaking tonight in the Auditorium here, assailed the administration for its preparedness policy, which he declared inadequate, asserted that he regarded "reasonable preparedness as a primary duty," and purposed, if elected, "to see that it is discharged to the credit of the American people."

"We are a spirited people," Mr. Hughes declared. "We are a people who can protect ourselves. We are not too proud to fight."

Much of the nominee's address was devoted to the Mexican situation and the calling of the national guard to service on the border.

The administration's embargo on arms to Mexico was criticized as "fast and loose—no policy."

"I don't think it a rash statement," the nominee said, "I think it is warranted by the facts to say that any American soldier killed in Mexico is killed by American bullets, that we have let go over the border."

"The only punishment inflicted was punishment inflicted on our selves," he said. "We punished nobody else."

"A large proportion of the nominee's address was devoted to reiteration of his views on the need for industrial cooperation and preparation for commercial competition by Europe after the war."

REPLIES TO REDFIELD.

MINNEAPOLIS, Aug. 9.—Charles E. Hughes, replying to Secretary Redfield's telegram denying that E. D. Dana Durand was forced out of office as director of the census, today read to a large audience here a letter from Mr. Durand in which Mr. Durand said that he had told Redfield he would resign but wanted to remain and that Redfield replied that the administration had decided on a change.

Reads From Durand.

In his speech here, Mr. Hughes said in part:

"In my speech at Detroit I took occasion to refer to the fact that in a very important bureau, the Bureau of Census, and on eminent statistician, a man of conspicuous expertise and fitness for the place, had been retired, and a man had been appointed in his place without qualifications for that important technical work. You must know how important that census bureau is. In the proper collation of those statistics is furnished the opportunity for many investigators to detect important tendencies in our life. It is work that must be done expertly."

"Now, my statement that E. Dana Durand was relieved, as I said in effect, and his place given to a politician, has been challenged by Secretary Redfield. Secretary Redfield telegraphed me that I was greatly misinformed. He says 'Durand was not removed or retired, but resigned voluntarily, unasked. I was glad to en-

LEADING MEN BEFORE PUBLIC IN IMPENDING RAILROAD STRIKE

Left to right, top: Judge W. L. Chambers, Warren S. Stone and Judge Martin A. Knapp. Bottom: G. W. W. Hanger, Harry A. Wheeler, Timothy Shea and United States Senator Newlands.

Prominent men before the country connected with the expected railroad strike are members of the board of mediation and conciliation, Judges Martin A. Knapp and W. L. Chambers, and G. W. W. Hanger. Harry A. Wheeler is the man who warned President Wilson on behalf of the chamber of commerce. The prominent figures on the side of the union men are Warren S. Stone and Timothy Shea, assistant to Mr. Stone. Senator Newlands heads the committee which after considering whether the matter should be referred to the interstate commerce commission, refused to do so.

Banner of Suffragettes is Unfurled Upon Pike's Peak By Delegates of all States

(By Review Leased Wire.)

COLORADO SPRINGS, Aug. 9.—City suffragists prominent in the National Woman's party, which begins a three-day conference here tomorrow, unfurled a suffragist banner on the summit of Pike's Peak today, making the trip to the clouds in automobiles. Miss Anne Martin of Nevada dedicated the purple, white and gold banner to the cause.

Balance of Power

"Today," said Mrs. Florence Bayard Hilles of Delaware in a speech, "women from all over the country have gathered here to carry out the plans of the Susan B. Anthony amendment of the political freedom of women. Women are now voting in twelve states and the Woman's party stands as a political balance of power that will give enfranchisement to the women of our country."

Miss Doris Stevens, one of the national organizers, arrived today and Miss Alice Paul, founder of the party, will be here tomorrow.

The program tomorrow is limited to a big public reception at the home of Mrs. Leonard E. Curtis. Friday morning there will be a meeting in a downtown hotel at which talks will be made by Mrs. Bertha Fowler, Colorado, chairman; Mrs. Hilles, Mrs. Wm. Kent of California, and Mrs. Sara Bard Field of Oregon.

Italians Capture Gateway to Trieste, the Great Seaport of Austria at Head of Adriatic Sea

(By Review Leased Wire.)

LONDON, Aug. 9.—The vigorous offensive of the entente allies on the French, Gallician and Italian fronts is still being rewarded with important successes. In Austria the Italians have captured the city of Gorizia, 22 miles northwest of Trieste; in Gallician the Russians in quest of Lemberg have further carried out their endeavors toward the capture of Stanislaw from the Austro-Germans, while in France, the French and British forces in the Somme region have attacked and captured additional points of advantage from the Germans.

Gorizia Gateway.

The capture of Gorizia by the Italians seemingly is as important as the gains the allies have been attained in their present synchronous movement. Gorizia being the door through which

the Italians may pass in an endeavor to carry out their long cherished idea of capturing Trieste, Austria's biggest seaport at the head of the Adriatic Sea.

Important Captures.

In the fall of Gorizia, in which Rome says the Austrians were completely routed, the Italians inflicted heavy casualties on its defenders, took more than 10,000 men prisoners and captured great quantities of war equipment.

Russ Still Gaining.

The Russian general Letichsky has driven his wedge further into the Austro-German line near Stanislaw, capturing eight miles east of that important city through which the railroad leads to Lemberg and the town of Tysmenitz. Northeast of Tysmenitz the Russians have crossed

U. S. MEDIATORS GO TO AVERT RAILWAY STRIKE

Everything Possible, Even
President's Personal Ap-
peal, Will be Done to Settle
Matter.

(By Review Leased Wire.)

WASHINGTON, Aug. 9.—Word that the service of the federal mediation board had been accepted today in the threatened strike of 400,000 railroad employees was received with undisguised relief by administration officials here.

The members of the board, with Secretary Wilson, went to New York with directions from President Wilson to do everything possible to avert a strike. They were instructed to keep the White House fully informed of every development. Realizing the serious situation which would confront the country in the event of a strike, they were instructed to keep the White House fully informed of every development. Realizing the serious situation which would confront the country in the event of a strike, they were instructed to keep the White House fully informed of every development.

150 FEARED DROWNED AS IMMENSE WALL OF WATERS SWEEPS POPULOUS VALLEY

Two Trains Loaded With Sunday Excursionists Are Lost
Somewhere in Flooded District. Hundreds of Houses
Washed Away in Cabin Creek Valley. Damage Is es-
timated at Several Millions.

GOVERNOR HASTENS TO SCENE TO
AID, MILITIA ALSO ORDERED OUT

Of Fifteen Thousand Persons One-third are Reported Home-
less today. Relief Trains are Rushed to Flooded Dis-
tricts. With Wire and Rail Communications Down,
Rescue Work Proceeds Slowly.

(By Review Leased Wire.)

CHARLESTON, W. Va., Aug. 9.—At least eleven persons were drowned by a cloudburst which swept the Cabin Creek valley today, according to reports received here tonight. A number of bodies have been recovered but none identified. Wire and rail communication has practically been cut off and reports are meagre. The damage to railroad coal, oil and gas property is estimated at one million dollars. Scores of houses were carried away by the flood.

150 Reported Drowned.

According to officials of the Virginia Power Company tonight, at least 150 persons have lost their lives. Eleven bodies have so far been recovered, many persons have been seen clinging to debris in the flood, but no assistance could be given them. The Sunday school excursion train which is marooned near St. Albans is said to have 300 persons on board. Efforts to reach them have failed.

Cloudburst Wrecks Towns.

The cloudburst occurred at the head waters of Paini and Cabin creeks and Coal rivers and the torrent which surged down Coal river swept its banks most clean of villages while the Kanawha river raised several feet, carrying on its crest houses and buildings of all kinds.

Two Trains Lost.

Near St. Albans are marooned two passenger trains, one of which is a Sunday school excursion, train. Nothing has been heard from either.

The Cabin Creek valley has a population of about fifteen thousand persons. Advice received here indicate about one-third of this number are probably homeless.

Plans are being made here to send relief trains to the flooded districts.

Governor Sends Militia

HUNTINGTON, W. Va., Aug. 9.—Governor Hatfield who arrived here today to attend the state Republican convention tonight, ordered special relief trains to the Coal river and Cabin creek districts, where, according to reports, more than 100 have been

drowned and 5000 made homeless.

Two companies of Second regiment West Virginia national guard have been ordered to attend the flood districts. So serious is the situation that Governor Hatfield left the city tonight to go to the scene of the devastation.

SERUMS USED TO ARMY BILL GETS COMBAT N. Y. EPIDEMIC THRU CONGRESS AT LAST

(By Review Leased Wire.)

NEW YORK, Aug. 9.—Methods of serum treatment in cases of infantile paralysis based on scientific principles and from which beneficial results have been obtained, were outlined tonight by Dr. Haven Emerson, city health commissioner.

One of these methods, the commissioner stated, consists of using the fluid withdrawn by spinal puncture and re-injected subcutaneously or intramuscularly into the same patient.

Another method is spinal injections of blood serum derived from persons who have recovered from the disease. The first treatment described by the commissioner as one of "active immunization" is based on the assumption that the spinal fluid taken from the patient contains the virus of the disease which when injected subcutaneously or intramuscularly will stimulate the production of antibodies which will aid in overcoming the infection.

The blood serum derived from convalescents, he pointed out, contains antibodies which also will aid in overcoming infection. The new high record of 57 deaths today resulted in a decision to postpone the opening of the public schools set for September 11. Officials of the board of education and the department of health said tonight it might be October 1 before the schools were opened, and possibly November 1.

(By Review Leased Wire.)

WASHINGTON, Aug. 9.—Congress carried national defense legislation another step forward today by finally perfecting the army bill. Only perfection of the navy bill now remains for completion of the program behind which President Wilson has put the full force of the administration to defeat attempts at reduction.

Although the senate conferees permitted the house to reduce the total appropriations of the army bill some \$46,000,000 from the senate figures, it carries \$85,000,000 more than it did as the house originally passed it and totals \$267,597,000.

Its final passage was not without evidences of disagreement within the Democratic ranks. Democratic Leader Kitchin and Representatives Dies, of Texas, the latter one of the pacifist group, announced that if there were a roll call they would vote against the bill as finally framed. But there was no roll call and the bill went through ready for President Wilson's signature without a record vote.

Tuesday the naval bill will be called up and the house will be asked to agree to the senate amendments, principal among which is the big building program. President Wilson has told the house leaders he considers adoption of the big program essential and the administration expects it to go through.
